

# Undergraduate Projects in Computational Science and Engineering

**SIAM CSE11, Feb 28 – March 4, 2011  
Reno, Nevada**

As part of the activities at the SIAM Conference on Computational Science and Engineering 2011, [www.siam.org/meetings/cse11](http://www.siam.org/meetings/cse11) it is again planned to have two, or more, sessions devoted to undergraduate research projects in Computational Science and Engineering.

This builds on successful sessions at previous SIAM Annual and CSE Meetings. This event has become a regular feature of SIAM's student activities at future CSE meetings. On this occasion it is combined with Student Days which have been added to CSE11 since there is no Annual Meeting this year.

Interested students are invited to submit the following by e-mail in plain text format:

Title,  
Name(s) of student(s), with affiliation  
Name(s) of Advisor(s), with affiliation, and a  
Brief abstract

to the organizers:

Peter Turner, [pturner@clarkson.edu](mailto:pturner@clarkson.edu)  
Angela Shiflet, [shifletab@wofford.edu](mailto:shifletab@wofford.edu)  
Ignatios Vakalis, [ivakalis@calpoly.edu](mailto:ivakalis@calpoly.edu)

Deadline for submission: As soon as possible. Details must be finalized in November to be published in the program.

The number of presentation slots is limited, so early submission is advised.
