

The Society of Industrial and Applied Mathematics (SIAM) and Sustainable Horizons Institute invite you to show support of engaging a diverse community at the [SIAM 2015 Conference on Computational Science and Engineering](#) by sponsoring the event listed below or by providing travel support for students and early career faculty and professionals from under-represented groups. Here’s what Lois Curfman McInnes, CSE15 Co-Chair, has to say about the Diversity Sponsorships:

Supporting talented students, faculty, and professionals from under-represented groups to attend CSE15 is a powerful opportunity to broaden the CSE community so that we can meet the increasing challenges of next-generation CSE. Your support will help to expose these CSE newcomers to the excitement of interdisciplinary CSE—synergistic connections among domain sciences, applied mathematics, and computer science—and to engage them through mentoring, thereby nurturing and providing a path toward collaborations, careers, and leadership.

Circle one or more of the sponsorship opportunities listed below in which your organization is interested and

Return this contract or contact us at info@shinstitute.org at least nine weeks prior to the meeting.
